Professional Summary

Full Stack Developer with hands-on experience in MERN stack development using MongoDB, Express.js, React.js, and Node.js. Skilled in building responsive web applications, REST APIs, authentication, reusable UI components, and database-driven solutions. Experienced in debugging, testing, Git-based development, and SDLC practices.

Education

B.E Electronics and Communication Engineering

2021 – 2025

Mohamed Sathak Engineering College

CGPA: 8.35 / 10

Skills

MERN Stack: MongoDB, Express.js, React.js, Node.js

Languages: JavaScript, Python, Java (Basic), HTML5, CSS3

Frontend: React.js, Redux Toolkit, React Router, Tailwind CSS, Bootstrap, Vite

Backend & APIs: Node.js, Express.js, REST APIs, JWT Authentication

Databases: MongoDB, MySQL, SQL

Core Concepts: OOP, Basic Data Structures, SDLC, Software Testing, Debugging

Tools: Git, GitHub, VS Code

Experience

Junior Software Developer Trainee

May 2026 – August 2026

CADD Technologies — On-site

- Developed responsive web applications using React.js, JavaScript, HTML, CSS, Tailwind CSS, and REST APIs.
- Built reusable React components, integrated backend APIs, and implemented responsive user interfaces following clean coding practices.
- Troubleshoot application issues, debugged code, performed testing, and maintained application functionality.
- Collaborated with team members using Git and GitHub throughout the software development lifecycle.

Full Stack Web Developer Intern

July 2024 – August 2024

TECHVOLT Software Pvt. Ltd. — On-site

- Developed responsive web applications using HTML, CSS, JavaScript, Python, and Bootstrap.
- Assisted in backend development using Django and integrated REST APIs with database-driven applications.
- Performed debugging, testing, feature implementation, and version control using Git and GitHub.

Projects

QuickChat – Real-Time Chat Application

[Project Link](#)

- **Tech Stack:** MongoDB, Express.js, React.js, Node.js, Socket.io, JWT, Tailwind CSS
- Developed a full-stack real-time chat application using the MERN stack with Socket.io for instant messaging.
- Implemented JWT-based authentication and authorization with protected routes and secure user sessions.
- Built responsive React interfaces with reusable components, online user status, and persistent chat history using MongoDB.

QuickBite – Food Delivery Application

[Project Link](#)

- **Tech Stack:** React.js, Redux Toolkit, JavaScript, Tailwind CSS, REST APIs
- Developed a responsive food delivery application with restaurant listings, search, filtering, and cart management using React.js.
- Integrated REST APIs and managed application state using Redux Toolkit.
- Built reusable React components with Tailwind CSS for responsive desktop and mobile experiences.

Crypto Tracker

[Project Link](#)

- **Tech Stack:** React.js, Vite, React Router, CoinGecko API, Clerk Authentication, React Google Charts
- Built a cryptocurrency tracking application displaying real-time market data, search functionality, and multi-currency support.
- Integrated REST APIs, implemented authentication with Clerk, and developed interactive historical price charts with a responsive React UI.

Certifications

- **Junior Software Developer** – CADD Technologies
- **Full Stack Web Development** – TECHVOLT Software Pvt. Ltd.
- **Python Essentials 1 & 2** – Cisco Networking Academy
- **HTML Certification** – Spoken Tutorial
